AIM AND SCOPE

Journal of the Turkish Academy of Dermatology is a refereed publication designed to provide reference and up-to-date information needs of the international dermatologic community. This journal was created in an effort to explore the educational potential of distributed hypermedia served via the World Wide Web. The official organ of the Society of Academy of Cosmetology and Dermatology in Turkey, "Journal of the Turkish Academy of Dermatology" is attempting to improve the way in which information is transferred and accessed. In addition, access to PubMed reference numbers is enabled. The journal is published quarterly in March, June, September and December.

The journal is indexed in **Turkey Citation Index, EBSCO, Index Copernicus, Gale and J-Gate.**

Authors who have a new concept for on-line presentation are invited to contact the Editors to initiate a dialog.

Processing and publication are free of charge with Journal of the Turkish Academy of Dermatology. No fees are requested from the authors at any point throughout the evaluation and publication process. All manuscripts must be submitted via the online submission system which is available through the journal's web page.

Subscription / Permissions / Advertisement

Free full-text manuscripts are available online at jtad.org. Applications for copyright permissions and announcements should be made to Editorial office.

This work is licensed under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License.

Copyright Statement

Society of Academy of Cosmetology and Dermatology owns the royalty and national and international copyright of all content published in the journal. Other than providing reference to scientific material, permission should be obtained from Society of Academy of Cosmetology and Dermatology for electronic submission, printing, distribution, any kind of reproduction and reutilization of the materials in electronic format or as printed media.

Material Disclaimer

The author(s) is (are) responsible for the articles published in the Journal of the Turkish Academy of Dermatology. The editor, editorial board and publisher do not accept any responsibility for the articles.

Open Access Policy

This journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.

Open Access Policy is based on the rules of the Budapest Open Access Initiative (BOAI) <http://www.budapestopenaccessinitiative.org/>. By "open access" to peer-reviewed research literature, we mean its free availability on the public internet, permitting any users to read, download, copy, distribute, print, search, or link to the full texts of these articles, crawl them for indexing, pass them as data to software, or use them for any other lawful purpose, without financial, legal, or technical barriers other than those inseparable from gaining access to the internet itself. The only constraint on reproduction and distribution, and the only role for copyright in this domain, should be to give authors control over the integrity of their work and the right to be appropriately acknowledged and cited.

INSTRUCTIONS TO THE AUTHORS

Coverage of Journal of the Turkish Academy of Dermatology

The journal is created with a general concept to accommodate the coverage of topics of current concern where accepted articles regularly cover:

Continuing Medical Education: Substantial educational articles presenting core information for the continuing medical education of the practicing dermatologist.

Original Articles: Original in-depth epidemiological studies or clinical and investigative laboratory research articles.

Case Reports: Brief individual case reports of unusual interest.

Correspondence: Brief letters to the editor that comment on previous articles or that involve brief case presentations.

Editorial Policies

Journal of the Turkish Academy of Dermatology is a refereed journal. Original manuscripts will be considered for publication. Information that has been published or is being considered for publication elsewhere will not be accepted. Manuscripts that appear to meet the goals of the Journal will be reviewed by two independent reviewers before a decision is made on publication.

All submissions must be accompanied by a signed statement of scientific contributions and responsibilities of all authors and a statement declaring the absence of conflict of interests. Any institution, organization, pharmaceutical or medical company providing any financial or material support, in whole or in part, must be disclosed in a footnote (ICMJE Disclosure Form for Potential Conflict of Interest(s)).

Manuscript format must comply with the ICMJE-Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals (updated in December 2018- <http://www.icmje.org/icmje-recommendations>).

The presentation of Original Researches and Reviews must be designed in accordance with trial reporting guidelines: randomized study-CONSORT, observational study-STROBE, study on diagnostic accuracy-STARD, systematic reviews and meta-analysis PRISMA, animal experimental studies-ARRIVE, nonrandomized behavioural and public health intervention studies-TREND.

Experimental, clinical and drug studies requiring approval by an ethics committee must be submitted to the Journal of the Turkish Academy of Dermatology with an ethics committee approval report confirming that the study was conducted in accordance with international agreements and the Declaration of Helsinki (revised 2013) (<https://www.wma.net/policies-post/wma-declaration-of-helsinki-ethical-principles-for-medical-research-involving-human-subjects/>). The approval of the ethics committee and the presence of informed consent given by the patients should be indicated in the Materials and Methods section. In experimental animal studies, the authors should indicate that the procedures followed are in accordance with animal rights as per the Guide for the Care and Use of Laboratory Animals (<http://oacu.od.nih.gov/regs/guide/guide.pdf>) and they should obtain animal ethics committee approval.

Authors must provide disclosure/acknowledgment of financial or material support, if any was received, for the current study.

If the article includes any direct or indirect commercial links or if any institution has provided material support to the study, authors must state in the cover letter that they have no relationship with the commercial product, drug, pharmaceutical company, etc. concerned; or specify the type of relationship (consultant, other agreements), if any.

Style

Manuscripts should conform to acceptable language usage. Abbreviations must be limited primarily to those in general usage. Generic names must be used. If a trade name is included, it should follow the generic name in parentheses the first time mentioned. Thereafter, generic names only should be used. Weights and measurements should be expressed in metric units, and temperatures in degrees centigrade.

Items may link back to the primary manuscript path or link to additional supplemental content.

All manuscripts submitted to the journal are screened for plagiarism using the 'iThenticate' software.

Preparation of Manuscripts

By submitting your article for publication, you grant Journal of the Turkish Academy of Dermatology the copyright to reproduce that work and associated images in electronic format (on the Internet or as a CD-ROM version of the Internet site) or in paper format derived from the on-line work. Otherwise the author still retains copyright to the written material and any associated images.

Original articles may be submitted in English. Send your manuscript in digital format in simple text, Microsoft Word, or RTF to the Editors. The Journal uses the accepted standard scientific format:

INSTRUCTIONS TO THE AUTHORS

References: Reference citations within the article should be noted with square brackets following punctuation like this [2, 3, 4]. If necessary one may also place a citation in the middle of a sentence (The sentence may need to pinpoint the citation to a specific comment [5] and not link it to the subsequent remarks.) In the reference section, list the references by a simple number at the start of a line, followed by a period and space. Use the citation format of PubMed, including the PMID number:

References:

Mareledwane NG. A randomized, open-label, comparative study of oral doxycycline 100 mg vs. 5% topical benzoyl peroxide in the treatment of mild to moderate acne vulgaris. *Int J Dermatol* 2006; 45: 1438-1439. PMID: 17184250

Doger FK, Dikicioglu E, Ergin F, Unal E, Sendur N, Uslu M. Nature of cell kinetics in psoriatic epidermis. *J Cutan Pathol* 2007; 34: 257-263. PMID: 17302610

Book: - Monsel G, Delaunay P, Chosidow O. Arthropods. In: Griffiths C, Barker J, Bleiker T, Chalmers R, Creamer D, editors. *Rook's Textbook of Dermatology*, 9th ed. Singapore: Blackwell Science; 2016. p. 32-34.

Tables and figures may be included in the document, and like images will need to be transferred as separate files, one file per table or figure. Unless

the tables are less than 420 px wide, they will be linked from the text rather than put in-line.

Images

The extensive use of images is encouraged. The standard size for images is 768*512 pixels. The journal may edit the images to make in-line representations that will be linked to the larger versions. Unless you have written permission from the patient, photographs should not be identifying. If facial images are to be used, please mask the eyes or in some way de-identify the image. Clinical photographs should be saved in medium JPEG compression format. Line drawings or tables should be in Compuserve GIF format. Please limit the width of any in-line material to 434 pixels. Please avoid spaces when numbering your images and use the extension to indicate the compression algorithm (e.g., figure1.jpg, figure2.gif, etc.). It would be helpful for you to indicate the appropriate location of your figures within your text. You may use square braces for these remarks. Please place these remarks on the line preceding the appropriate paragraph. Two figures will appear side-by-side above the indicated paragraph.

HOW TO TRANSMIT YOUR WORK TO THE JOURNAL

The core text material should be submitted via the online article system from the link below:

<https://www.journalagent.com/jtad/>

CONTENTS

REVIEW

- 37** Collagen Supplementation
Defne Özkoca, Özge Aşkın; Istanbul, Turkey
